Barclays issues investor guidance on OIL ETNs

Notice regarding recent persistent and material premium in the trading price of the iPath[®] S&P GSCI[®] Crude Oil Total Return Index Exchange Traded Notes

New York, January 20, 2016 – Barclays Bank PLC (“Barclays”) announced an investor guidance notification today regarding the iPath[®] S&P GSCI[®] Crude Oil Total Return Index Exchange Traded Notes (the “ETNs”). The ETNs currently trade on the NYSE Arca stock exchange under the ticker symbol “OIL”.

Recently, a material premium has developed in the trading price of the ETNs on the exchange in relation to their intraday indicative value. From January 1, 2016 to January 19, 2016, the closing indicative value (also referred to as the daily redemption value) *decreased* by approximately 30% from \$5.67 to \$3.95 per ETN, while the closing price of the ETNs on the exchange *decreased* by only approximately 11% from \$6.26 to \$5.58 per ETN. The closing price of the ETNs on the exchange as of January 19, 2016 reflected a 41% premium to the corresponding closing indicative value.

Due to the current market dynamic in the sale by the issuer of ETNs from inventory, there are likely to be continued fluctuations in this premium if strong interest from exchange participants in purchasing the ETNs continues.

Investors considering any purchase of the ETNs should be aware of the fact that the intra-day market prices of the ETNs on the exchange could be significantly higher than the intraday indicative value of the ETNs as calculated with reference to the level of the underlying index, minus an investor fee.

The secondary market premiums for the ETNs have been volatile, however, and investors should not assume that the ETNs will continue to trade at a premium in relation to their intraday indicative value.

The ETNs are riskier than ordinary unsecured debt securities and have no principal protection. The ETNs are unsecured debt obligations of the issuer, Barclays Bank PLC, and are not, either directly or indirectly, an obligation of or guaranteed by any third party. **An investment in the ETNs involves significant risks, including possible loss of principal and may not be suitable for all investors.**

Daily redemptions at the option of the holders of the ETNs continue to stay open. The pricing supplement relating to the ETNs can be found on EDGAR, the SEC website at: www.sec.gov, as well as on the product website at www.iPathETN.com.

Barclays Bank PLC is the issuer of iPath[®] ETNs and Barclays Capital Inc. is the issuer’s agent in the distribution.

Barclays is an international financial services provider engaged in personal banking, credit cards, corporate and investment banking and wealth management with an extensive presence in Europe, the Americas, Africa and Asia. mark.lane@barclays.com**iPath ETNs:** For further information about the iPath ETNs go to: <http://www.iPathETN.com>.**Selected Risk Considerations**

An investment in the iPath ETNs described herein (the “ETNs”) involves risks, including possible loss of principal, and may not be suitable for all investors. Selected risks are summarized here, but we urge you to read the more detailed explanation of risks described under “Risk Factors” in the applicable prospectus supplement and pricing supplement.

You May Lose Some or All of Your Principal: The ETNs are exposed to any decrease in the level of the underlying index between the inception date and the applicable valuation date. Additionally, if the level of the underlying index is insufficient to offset the negative effect of the investor fee and other applicable costs, you will lose some or all of your investment at maturity or upon redemption, even if the value of such index has increased. Because the ETNs are subject to an investor fee and any other applicable costs, the return on the ETNs will always be lower than the total return on a direct investment in the index components. **The ETNs are riskier than ordinary unsecured debt securities and have no principal protection.**

Credit of Barclays Bank PLC: The ETNs are unsecured debt obligations of the issuer, Barclays Bank PLC, and are not, either directly or indirectly, an obligation of or guaranteed by any third party. Any payment to be made on the ETNs, including any payment at maturity or upon redemption, depends on the ability of Barclays Bank PLC to satisfy its obligations as they come due. As a result, the actual and perceived creditworthiness of Barclays Bank PLC will affect the market value, if any, of the ETNs prior to maturity or redemption. In addition, in the event Barclays Bank PLC were to default on its obligations, you may not receive any amounts owed to you under the terms of the ETNs.

Market and Volatility Risk: The prices of physical commodities, including the commodities underlying the index components, can fluctuate widely due to supply and demand disruptions in major producing or consuming regions. Additionally, the market value of the ETNs may be influenced by many unpredictable factors including changes in supply and demand relationships, governmental policies and economic events.

Concentration Risk: Because the ETNs are linked to an index composed of futures contracts on a single commodity or in only one commodity sector, the ETNs are less diversified than other funds. The ETNs can therefore experience greater volatility than other funds or investments.

A Trading Market for the ETNs May Not Develop: Although the ETNs are listed on NYSE Arca, a trading market for the ETNs may not develop and the liquidity of the ETNs may be limited, as we are not required to maintain any listing of the ETNs.

No Interest Payments from the ETNs: You may not receive any interest payments on the ETNs.

Restrictions on the Minimum Number of ETNs and Date Restrictions for Redemptions: You must redeem at least 50,000 ETNs of the same series at one time in order to exercise your right to redeem your ETNs on any

redemption date. You may only redeem your ETNs on a redemption date if we receive a notice of redemption from you by certain dates and times as set forth in the pricing supplement.

Uncertain Tax Treatment: Significant aspects of the tax treatment of the ETNs are uncertain. You should consult your own tax advisor about your own tax situation.

Barclays Bank PLC has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus and other documents Barclays Bank PLC has filed with the SEC for more complete information about the issuer and this offering. You may get these documents for free by visiting www.iPathETN.com or EDGAR on the SEC website at www.sec.gov. Alternatively, Barclays Bank PLC will arrange for Barclays Capital Inc. to send you the prospectus if you request it by calling toll-free 1-877-764-7284, or you may request a copy from any other dealer participating in the offering.

The ETNs may be sold throughout the day on the exchange through any brokerage account. Commissions may apply and there are tax consequences in the event of sale, redemption or maturity of ETNs.
